

DID YOU KNOW THAT ONE OF THE FOUR SAINTS OF ANATOLIA IS FROM KASTAMONU?

Mevlana, Hacı Bektaşî Veli, Hacı Bayramı Veli and in the 16th century Sheikh Şaban-I Veli.

The four guardians of Anatolia. The symbols of unity, life and peace of our civilization geography. The mortal guardians who lived and made us live moral, humane and civilized values for our nationality to grow.

This wisdom and knowledge sun who was born in Kastamonu has illuminated the eastern and western philosophical world. Sheikh Şaban-I Veli (k.s.) has redounded the way of true path, and reached the "Pir" level. After fulfilling the duty of showing the true path for more than forty years, he died in 1568.

As the polar of his time; Pir Sheikh Şaban-I Veli (k.s.) also had the authority to show the true path to the gins along with humans, he was known as "Mürşidiü's Sakaleyn" among the ulema of Islamic philosophy. He educated three hundred and sixty caliphs. The caliphs of the cult of Halveti- Şabaniye whom were in charge of illuminating humans, have served on science and wisdom in Anatolia, Egypt, Hedjaz, Pakistan, North Africa, Balkans and many other countries.

The Social Complex of Sheikh Şaban-ı Veli

This building was built by Seyyid Sunneti Effendi in 1490. Within the complex; a mosque, a shrine, dervish convent, a library, baton water, a water tank and dervish convent houses. It was registered to the Directorate of Foundations.

PIR SHEIKH ŞABAN-I VELİ
